Getting Real — a must read for anyone building a web app. Getting Real is packed with keep-it-simple insights, contrarian points of view, and unconventional approaches to software design. This isn't a technical book or a design tutorial, it's a book of ideas. Anyone working on a web app - including entrepreneurs, designers, programmers, executives, or marketers - will find value and ...

Getting Real: The smarter, faster, easier way to build a ...

Landscape design focuses on both the integrated master landscape planning of a property and the specific garden design of landscape elements and plants within it. The practical, aesthetic, horticultural, and environmental sustainability are also components of landscape design, which is often divided into hardscape design and softscape design. Landscape designers often collaborate with related ...

The Best Page In The Universe: FAQ

Introduction. The Web is providing unprecedented access to information and interaction for people with disabilities. It provides opportunities to participate in society in ways otherwise not available.

Understanding Web Accessibility [Book Chapter on UIAccess.com]

A designer is a person who makes designs for objects. A fashion designer designs clothing, a web

designer designs web pages and an automobile designer designs automobiles. In each case, the designer works with the help of a technician or engineer who understands deeper level concepts of manufacturing and engineering and the designer themselves is largely confined to work at a surface level.

Last year, I had attended my first Startup Weekend and somehow wound up in a team of four thinkers and a single doer (myself) who can't even code apart from HTML and CSS. You could see other teams were relieved to have such a 'weak' competition. We were like geeks among geeks. How meta. And so we did surveys, wireframes, lots of thinking, and on top of all that, I created the app's interface ...

Got an Idea for an App? Don't Hire a Developer Before ...

User experience (UX) design is the process of creating products that provide meaningful and relevant experiences to users. This involves the design of the entire process of acquiring and integrating the product, including aspects of branding, design, usability, and function.
