### **Relationship Conflict and Management: Definition ...**

Based on his observations of people in his own clinical practice in the nineteen fifties, the psychologist Eric Berne developed the idea that people can switch between different states of mind—sometimes in the same conversation and certainly in different parts of their lives, for example at work and at home. He found that these states of mind aggregated into three types which he christened ...

Trust. Part of the 'empathy process' is establishing trust and rapport. Creating trust and rapport helps us to have sensible 'adult' discussions (see Transactional Analysis, which is another useful model for understanding more about empathy). Establishing trust is about listening and understanding - not necessarily agreeing (which is different) - to the other person.
