Photography is the art, application and practice of creating durable images by recording light or other electromagnetic radiation, either electronically by means of an image sensor, or chemically by means of a light-sensitive material such as photographic film. It is employed in many fields of science, manufacturing (e.g., photolithography), and business, as well as its more direct uses for art ...

Photography - Wikipedia

A photo book or photobook is a book in which photographs make a significant contribution to the overall content. A photo book is related to and also often used as a coffee table book.

John Pawson's second photographic book, *Spectrum*, comprises a chromatically ordered sequence of 320 images. Alongside its core exploration of colour, *Spectrum* offers a detailed archive of references for pattern, texture, form and spatial arrangement, drawn from a wide variety of locations. The book reflects the continuing importance of photography as a design tool in Pawson's daily work.

Joel Meyerowitz (b. 1938) was born in New York City and began taking photographs in 1962. Although he has always seen himself as a street photographer in the tradition of Henri Cartier-Bresson and Robert Frank (he is the co-author of the standard work on the genre, *Bystander: A History of Street Photography*, 1994) he transformed the mode with his pioneering use of color.
