The ACRE Co. - Farm Auctions

The acre is a unit of land area used in the imperial and US customary systems. It is traditionally defined as the area of one chain by one furlong (66 by 660 feet), which is exactly equal to 10 square chains, 1/640 of a square mile, or 43,560 square feet, and approximately 4,047 m², or about 40% of a hectare. Based upon the International yard and pound agreement of 1959, an acre may be ...

This article presents results from ABARES most recent surveys of Australian broadacre and dairy farms (see Box 1). The surveys collected detailed information on the physical and financial performance of broadacre and dairy farms in 2017–18, as well as farm managers' estimates of key production, receipts, costs and farm debt variables for the 2018–19 financial year.

Farm performance: broadacre and dairy farms, 2016-17 to ...

California's interconnected water system serves over 30 million people and irrigates over 5,680,000 acres (2,300,000 ha) of farmland. As the world's largest, most productive, and most controversial water system, [page needed] it manages over 40 million acre feet (49 km³) of water per year. Water and water rights are among the state's divisive political issues.
