Written by Mark "Deffman" Drolsbaugh.. On many occasions, I have been asked to explain this phenomenon which is known as Deaf Pride. After all, people ask, how could someone possibly be proud of what appears to be nothing more than a disability?

A Page explaining Deaf Pride

Does our intellect understand by abstracting the species from the phantasms? Are the intelligible species abstracted from the phantasms what our intellect understands, or that whereby it understands? Does our intellect naturally first understand the more universal? Can our intellect know many things at the same time? Does our intellect understand by the process of composition and division?

SUMMA THEOLOGIAE: The mode and order of understanding ...

Most fish possess highly developed sense organs. Nearly all daylight fish have color vision that is at least as good as a human's (see vision in fishes). Many fish also have chemoreceptors that are responsible for extraordinary senses of taste and smell.

Sign languages (also known as signed languages) are languages that use the visual-manual modality to convey meaning. Language is expressed via the manual signstream in combination with non-manual elements. Sign languages are full-fledged natural languages with their own grammar and lexicon. This means that sign languages are not universal and they are not mutually intelligible, although there ...
