Merely said, the the black star passes john w campbell jr is universally compatible once any devices to read.

The Black Star Passes John

A black hole is a region of spacetime exhibiting gravitational acceleration so strong that nothing—no particles or even electromagnetic radiation such as light—can escape from it. The theory of general relativity predicts that a sufficiently compact mass can deform spacetime to form a black hole. The boundary of the region from which no escape is possible is called the event horizon.

Black hole - Wikipedia
