The Prize: The Epic Quest for Oil, Money, and Power is Daniel Yergin's history of the global petroleum industry from the 1850s through 1990. The Prize became a bestseller, helped by its release date in December 1990, four months after the invasion of Kuwait ordered by Saddam Hussein and one month before the U.S.-led coalition began the Gulf War to oust Iraqi troops from

that country.

Gravitational energy is the potential energy a physical object with mass has in relation to another massive object due to gravity. It is potential energy associated with the gravitational field. Gravitational energy is dependent on the masses of two bodies, their distance apart and the gravitational constant (G).. In everyday cases (i.e. close to the Earth's surface), the gravitational field is ...
