Income inequality in the United States is the extent to which income is distributed in an uneven manner among the American population. The inequality has increased significantly since the 1970s after several decades of stability, meaning the share of the nation's income received by higher income households has increased. This trend is evident with income measured both before taxes (market ...

2000 was not highly unusual. Because of the state-by-state winner-take-all electoral votes laws (i.e., awarding all of a state's electoral votes to the candidate who receives the most popular votes in each state) and (not mentioned in the U.S. Constitution, but later enacted by 48 states), in 48 states, a candidate can win the Presidency without winning the most popular votes nationwide.
