Virtue (Latin: virtus, Ancient Greek: ἀρετή "arete") is moral excellence. A virtue is a trait or quality that is deemed to be morally good and thus is valued as a foundation of principle and good moral being. Personal virtues are characteristics valued as promoting collective and individual greatness. In other words, it is a behavior that shows high moral standards.

## **Virtue - Wikipedia**

According to its etymology the word virtue (Latin virtus) signifies manliness or courage

Aristotle applied the same patient, careful, descriptive approach to his examination of moral philosophy in the *Εθικη Νικομαχου* (Nicomachean Ethics). Here he discussed the conditions under which moral responsibility may be ascribed to individual agents, the nature of the virtues and vices involved in moral evaluation, and the methods of achieving happiness in human life.

Plato's *Μένων* (Meno) is a transitional dialogue: although it is Socratic in tone, it introduces some of the epistemological and metaphysical themes that we will see developed more fully in the middle dialogues, which are clearly Plato's own. In a setting uncluttered by concern for Socrates's fate, it centers on the general problem of the origins of our moral knowledge.
