Army ROTC Military Science | Scholarships, Tuition Assistance

Introduction. Hair dyes are widely used for altering the cosmetic appearance of hair. The color of hair is determined by the abundance and relative concentrations of melanin pigments, the degradation of which results in gray or white hair.^{1, 2} The majority of hair dye products permanently change the hair color by a series of oxidative, dye-forming chemical reactions under alkaline conditions.¹ ...

Afro-textured hair is the natural hair texture of certain populations in Africa, the African diaspora, Oceania and in some parts of South and Southeast Asia. Each strand of this hair type grows in a tiny, angle-like helix shape. The overall effect is such that, compared to straight, wavy or curly hair, afro-textured hair appears denser.
