### **The Crack In Space Philip**

The Crack in Space. The Crack in Space is a 1966 science fiction novel by American writer Philip K. Dick. In the United Kingdom, it has been published under the title of the original novella, Cantata 140, published in the July 1964 issue of The Magazine of Fantasy & Science Fiction. This original title refers to the short title in English,...

### **The Crack in Space - Wikipedia**

The Crack in Space posits our world about 2080 (which, at the time it was published, would have been over 100 years in the future): there is severe overpopulation, to the extent that many young people are choosing to be cryogenically frozen until the labor market is better.

### **Amazon.com: The Crack in Space (9780547572994): Philip K ...**

Even when he is not at his very best, as with The Crack in Space, Philip K. Dick is eminently worth reading. Somehow, half a century ago, he anticipated several key facets of life in our time, starting with a black president and a racist society.

### **The Crack in Space by Philip K. Dick - Goodreads**

"The Crack In Space is a good example of how Philip Dick is able to raise a lofty philosophical issue in the context of a dramatic and imaginative story. While the events move by at a frantic pace and are filled with suspense and creativity, one is never able to ignore the intellectual complexity of the circumstances or the consequence to the (existing) human race if these events were ever to unfold.

### **The Crack in Space | Philip K. Dickipedia Wiki | FANDOM ...**

The Crack in Space by Philip K Dick deals with social and political issues, especially racial issues I wrote a review of Farnham s Freehold by Robert A Heinlein where the grandmaster explored elements of racism True, both writers go about the business clumsily and with not a small bit of racism them [..]

While the events move by at a frantic pace and are filled with suspense and creativity, one is never able to ignore the intellectual complexity of the circumstances or the consequence to the (existing) human race if these events were ever to unfold.

### **Review by Jason Koornick: The Crack In Space (1966 ...**

Over a writing career that spanned three decades, PHILIP K. DICK (1928–1982) published 36 science-fiction novels and 121 short stories in which he explored the essence of what makes man human and the dangers of centralized power. Toward the end of his life, his work turned to deeply personal, metaphysical questions concerning the nature of God.
