The Social Construction Of What

The social construction of gender is a theory in feminism and sociology about the operation of gender and gender differences in societies. According to this view, society and culture create gender roles, and these roles are prescribed as ideal or appropriate behavior for a person of that specific sex.. Some supporters of this idea argue that the differences in behavior between men and women ...

Social construction of gender - Wikipedia

Social constructionism is a theory of knowledge in sociology and communication theory that examines the development of jointly constructed understandings of the world that form the basis for shared assumptions about reality. The theory centers on the notion that meanings are developed in coordination with others rather than separately within each individual.

Catching The Phoenix: The Social Construction of Homosexuality Posted in September 2003 by Nick Yee. Introduction. The everyday use of language creates the illusion that words point to well-defined things or concepts, but they often do not.

The Social Construction of Homosexuality - Nick Yee

Social constructionism is a general term sometimes applied to theories that emphasize the socially created nature of social life. Of course, in one sense all sociologists would argue this, so the term can easily become devoid of meaning. More specifically, however, the emphasis on social constructionism is usually traced back at least to the work of William Isaac Thomas and the Chicago ...
