Evolution of the glyph. The use of three lines to denote the number 3 is only natural [clarification needed] and occurred in many writing systems, including some (like Roman and Chinese numerals) that are still in use.. In particular, that was also the original representation of 3 in the Brahmin Indians' numerical notation. However, during the Gupta Empire the sign was modified by the addition ...

Reading Group Guide. INTRODUCTION. The Invention of Wings, a powerful and sweeping historical novel by Sue Monk Kidd, begins, fittingly, with an image of flight: Hetty "Handful," who has grown up as a slave in early-nineteenth-century Charleston, recalls the night her mother told her that her ancestors in Africa could fly over trees and clouds. That day, Handful's mother, Charlotte, gave her ...

Chef's salad Food historians can't quite agree on the history and composition of chef's salad much less who assembled the first one. Some trace this salad's roots to Salmagundi, a popular meat and salad dish originating in 17th century England and popular in colonial America. Others contend chef's salad is a product of early twentieth century, originating in either New York or California.
