### **The Dark Side Of Sun**

Dark Sun is an original Dungeons & Dragons (D&D) campaign setting set in the fictional, post-apocalyptic desert world of Athas. Dark Sun featured an innovative metaplot, influential art work, dark themes, and a genre-bending take on traditional fantasy role-playing. The product line began with the original Dark Sun Boxed Set released for D&D's 2nd edition in 1991, originally ran until 1996 ...

In 2012, I published my extensively researched book, *Sunscreens—Biohazard: Treat as Hazardous Waste*. I am saddened that the book has made little impact on the worldwide production, proliferation and use of sunscreens. The widespread use of sunscreens has resulted not only in increased skin cancers but in contamination of the world's water sources.

Why Do We Only See One Side of the Moon? You may have heard references made to the "dark side" of the Moon. This popular term refers to the fact that the same physical half of the Moon, the "near side", is always facing Earth, which in turn means that there is a far side or so-called "dark side" that is never facing Earth and can only be seen from space.
