If you're on a path of self-development. you may be witnessing the state of the world today and wondering how this is possible. How, with all that is known about human development and potential, is the world still in such a deep state of turmoil and conflict?. How is it possible that we're capable of exploring our solar system, inventing the internet, and decoding our DNA, but we can't ...

Philosophy of mind is a branch of philosophy that studies the ontology, nature, and relationship of the mind to the body. The mind-body problem is a paradigm issue in philosophy of mind, although other issues are addressed, such as the hard problem of consciousness, and the nature of particular mental states. Aspects of the mind that are studied include mental events, mental functions ...

Gossip is idle talk or rumor, especially about the personal or private affairs of others; the act is also known as dishing or tattling.. Gossip has been researched in terms of its origins in evolutionary psychology, which has found gossip to be an important means for people to monitor cooperative reputations and so maintain widespread indirect reciprocity.

Introduction. Individual decision-making about consumption has been the subject of many theories and approaches. In this paper, we are interested to propose some steps to include consumer decision making and behaviour in formal models, trying to do this in a more realistic way than the neoclassical theory.
