Medtronic could go one of two marketing routes with this device. On the one hand, they could market it disruptively as a pacemaker that performs less well on some dimensions (it's only indicated for single valve right atrial fibrillation representing about 10% of those who need a pacemaker in the U.S. per year), but better on others (less invasive, less risk of lead fractures and infections ...

The Intellivision is a home video game console released by Mattel Electronics in 1979. The name Intellivision is a portmanteau of "intelligent television". Development of the console began in 1977, the same year as the introduction of its main competitor, the Atari 2600. In 1984 Mattel sold their video game assets to a former Mattel Electronics executive and investors that would become INTV ...

A game is a structured form of play, usually undertaken for enjoyment and sometimes used as an educational tool. Games are distinct from work, which is usually carried out for remuneration, and from art, which is more often an expression of aesthetic or ideological elements. However, the distinction is not clear-cut, and many games are also considered to be work (such as professional players of ...
