The Changeling Sea, a Mythopoeic Award nominee first published in 1988, is a perfect example of why I wanted to read all of Patricia McKillip's books in the first place. This slim stand alone fantasy (less than 150 pages!) is lovely and just the right length for the story it tells: the tale of Peri, an islander who despises, curses, and then falls in love with the sea.

The Changeling Sea has death, first love, lost love, and more elements that can make or break a story. Patricia A. McMillan skillfully spins a charming story. My favorite thing about this book is that it could have been dramatic but McKillip tastefully depicts it into a sweet tale.
