The Irish property bubble was the overshooting part of a long-term price increase of real estate in the Republic of Ireland from the late 1990s to 2007, a period known as the Celtic Tiger. In 2006 the prices peaked at the top of the bubble, with a combination of increased speculative construction and rapidly rising prices; in 2007 the prices first stabilised and then started falling until 2010.
