International SOS and Control Risks publish Travel Risk Map 2019 to help organisations better understand the risks in the markets where they operate and travel.

TRAVEL RISK MAP 2019 - International SOS

Risk is a strategy board game of diplomacy, conflict and conquest for two to six players. The standard version is played on a board depicting a political map of Earth, divided into forty-two territories, which are grouped into six continents. Turn rotates among players who control armies of playing pieces with which they attempt to capture territories from other players, with results ...

Risk (game) - Wikipedia

Three main factors together determine seismic risks: the level of seismic hazard, the number of people and amount of property that are exposed to seismic hazards, and how vulnerable these people and property are to the hazards.
