Solar Phenomena. It is believed that the axis of the temple was positioned by the ancient Egyptian architects in such a way that on October 21 and February 21 (61 days before and 61 days after the Winter Solstice), the rays of the sun would penetrate the sanctuary and illuminate the sculptures on the back wall, except for the statue of Ptah, the god connected with the Underworld, who always ...

Ship - History of ships: Surviving clay tablets and containers record the use of waterborne vessels as early as 4000 BCE. Boats are still vital aids to movement, even those little changed in form during that 6,000-year history. The very fact that boats may be quite easily identified in illustrations of great antiquity shows how slow and continuous had been this evolution until just 150 years ago.
