In the sequel War of the Worlds 2: The Next Wave, the antagonists are the "squid-walkers", a cybernetic race of tripods controlled by a single entity inside their mothership. Inside the mothership, humans are kept alive and their blood is filtered, homogenised, and fed to the aliens. They are killed by infected blood injected into the mothership's core, telepathically shutting down the Tripods.

SUMMARY: The story, which details 12 days in which invaders from Mars attack the planet Earth, captured popular imagination with its fast-paced narrative and images of Martians and interplanetary travel. The humans in The War of the Worlds initially treat the invasion with complacency but soon are provoked into a defensive state of war. The novel helped launch the career of actor and director ...
