The end-to-end principle is a design framework in computer networking. In networks designed according to this principle, application-specific features reside in the communicating end nodes of the network, rather than in intermediary nodes, such as gateways and routers, that exist to establish the network.. The essence of what would later be called the end-to-end principle was contained in the ...

Failed end of the world predictions 30 CE to 1920. About 30 CE: The Christian Scriptures (New Testament), when interpreted literally, appear to record many predictions by Yeshua of Nazareth (Jesus Christ) that God's Kingdom would arrive within a very short period, or was actually in the process of arriving. For example, Jesus is recorded as saying in Matthew 16:28: "...there shall be some ...
