The Incredible Human Journey Alice

The Incredible Human Journey is a five-episode, 300 minute, science documentary film presented by Alice Roberts, based on her book by the same name. The film was first broadcast on BBC television in May and June 2009 in the UK. It explains the evidence for the theory of early human migrations out of Africa and subsequently around the world, supporting the Out of Africa Theory.

The Incredible Human Journey - Wikipedia

I made my television debut back in 2001, as a human bone specialist on Channel 4's Time Team. I went on to present Coast on BBC2, and then to write and present a range of television series for BBC2, including The Incredible Human Journey, Origins of Us and Ice Age Giants, as well as several Horizon programmes. I've presented five series of the popular Digging for Britain series, looking at ...

At age 108, Holocaust survivor Alice Herz Sommer still practices piano for 3 hours every day. At age 104, she had a book written about her life: "A Garden Of Eden In Hell." At age 83, she had cancer. Alice survived the concentration camps through her music, her optimism and her gratitude for the small things that came her way - a smile, a kind word, the sun.

While the Old West wasn't as wild as Hollywood would have us believe, the frontier really was full of crazy characters. They just didn't have their own publicity agents like some westerners did. But today, we're righting past wrongs and uncovering some the less-known craziest characters to ever ride off into the sunset.
