Egyptian faience is a sintered-quartz ceramic displaying surface vitrification which creates a bright lustre of various colours, with blue-green being the most common. Defined as a "material made from powdered quartz covered with a true vitreous coating, usually in a transparent blue or green isotropic glass", faience is distinct from the crystalline compound Egyptian blue.

Egyptian faience - Wikipedia

The headline may seem dramatic but when you read of what is happening to Swedish society due to the authoritarian leadership of a politically correct metropolitan elite, and the social engineering projects of left wing intellectuals, the attacks on free speech by corporate media and the effects of unmanaged immigration, you will understand we are being quite restrained in our description of ...
