Everyone wants to be that person—the one who looks at the same information as everyone else, but who sees a fresh, innovative solution. However, it takes more than simply having a good idea. How you share it is as important as the suggestion itself. Why? Because writing a new script—literally or figuratively—means that other team members will have to adapt to something new.

The U.S. health insurance model frequently costs more and provides less care than systems in other Western nations. RAND's health insurance research began in 1971 with the 15-year Health Insurance Experiment, the only community-based experimental study of how cost-sharing arrangements affect people's use of health services, their quality of care, and their health status.

That would cause an insane epidemic. Right now they're spread out enough for herd immunity to mostly work. Once they're concentrated (basically like they were in all of the areas with outbreaks), measles will not only infect tons of them, but by being so widespread, have significantly more chances to evolve into forms that the vaccine does not prevent, thus causing a global out break on a ...
