The Knife Thrower And Other

Knife throwing is an art, sport, combat skill, or variously an entertainment technique, involving an artist skilled in the art of throwing knives, the weapons thrown, and a target. In some stage performances, the knife thrower ties an assistant to the target (sometimes known as a "target girl"), and throws to miss them.

Knife throwing - Wikipedia

There are many meetings and contests where one can meet fellow knife- and axe-throwers. Throwzini has an overview of the meetings in the United States, while we cover Europe primarily. (If you know of any meeting, please send us an email.) The largest event in Europe has so far always been the Big Throwers Meeting / European Championship. For many competitions, the standard European Knife and ...

Knife Thrower Meetings and Competitions

Impalement arts are a type of performing art in which a performer plays the role of human target for a fellow performer who demonstrates accuracy skills in disciplines such as knife throwing and archery. Impalement is actually what the performers endeavour to avoid – the thrower or marksman aims near the target rather than at him or her. The objective is to land the throw or shot as close as ...

Impalement arts - Wikipedia

"The hand of the master is guided by skill and set free by inspiration." (author unk.) Where does it all begin? Throwing a knife: to hit a tree...to stick and not fall...to hit a target — a bulls-eye... to miss a human assistant...to be several inches from your assistant...to break a balloon between your

Impalement Arts - Knife Thrower

The purpose of the AKTA is to provide assistance and to offer guidelines to individuals and groups who may wish to organize for competitive sport in their local areas. Stated precisely, the American Knife Throwers Alliance is an association of American and international sportsmen dedicated to the practice and promotion of knife throwing as a sport, recreation and hobby.

AKTA - American Knife Throwers Alliance

Tomahawks will have a minimum handle length of 12 inches from bottom of handle to top of handle or the part that is in line with the handle in cases where all metal or plastic/composite handled hawks/axes are used with a maximum cutting edge of no more than 4 ½ inches along the curve of the blade.
