The Impact Of Science On

The Impact of Science on Society. from time to time. According to Aristotle, who worked out a general theory in the fourth century B.C., the sky was made up of eight concentric crystalline spheres, each one carrying a planet and the outermost one carrying the stars, which were supposed to rotate east to west.

THE IMPACT OF SCIENCE ON SOCIETY - History Home

Welcome from the Chair. Every citizen will admit the enormous impact science has had on the development of a more healthy, prosperous and knowledgeable society. At the same time, investors in science need to show some proof of this, as politicians have to justify the investments in scientific research and education to their citizens.

ScienceWorks » The Impact of Science

The Impact of Society on Science. Much like the evidence for the impact of science on society, the evidence for the impact of society on science is all around for everyone to see, mainly in the form of the large (but never sufficient) funding that science enjoys in the more advanced countries.
