With a theoretical perspective focused on the symbols (like language, gestures, and artifacts) that people use to interact, this approach is interested in how people interpret those symbols in daily interactions.

Social Constructions of Reality | Introduction to Sociology

In The Construction of Social Reality, eminent philosopher John Searle examines the structure of social reality (or those portions of the world that are facts only by human agreement, such as money, marriage, property, and government), and contrasts it to a brute reality that is independent of human agreement. Searle shows that brute reality provides the indisputable foundation for all social reality, and that social reality, while very real, is maintained by nothing more than custom and habit.
