The planets (and other celestial objects) display a remarkable similarity at the phenomenological level.

The Similarities of the Planets (and Other Celestial Objects)

This article is about the interstellar region. For other uses, see Inner Sphere (disambiguation).. The Inner Sphere is a region of interstellar space surrounding Earth to a radius of roughly 450 - 550 light-years, generally demarcated by the outer borders of the "Great Houses." Within this region of about 2 million stars, there are approximately 2000 inhabited planets.
