The Optimism Bias A Tour

Optimism is a mental attitude reflecting a belief or hope that the outcome of some specific endeavor, or outcomes in general, will be positive, favorable, and desirable. A common idiom used to illustrate optimism versus pessimism is a glass filled with water to the halfway point: an optimist is said to see the glass as half full, while a pessimist sees the glass as half empty.

Escalation of commitment is a human behavior pattern in which an individual or group facing increasingly negative outcomes from a decision, action, or investment nevertheless continues the behavior instead of altering course. The actor maintains behaviors that are irrational, but align with previous decisions and actions. Economists and behavioral scientists use a related term, sunk-cost ...

General Overviews. There are several texts that provide an interesting overview of the field of behavioral genetics at large. Those listed here, including Rutter 2006 and Kim 2009, are intended to be fairly general and cover a broad array of behaviors. In addition, Segal, et al. 1997 and DiLalla 2004 are edited texts resulting from festschrifts that present chapters broadly reviewing the ...
