Ecological Intelligence. Daniel Goleman reveals the hidden environmental consequences of what we make and buy, and shows how new market forces can drive the essential changes we all must make to save our planet.

An accident left Derek Amato with a severe concussion and a surprising ability to play the piano. One theory is that his brain reorganized, making accessible existing memories of music.

The triune brain is a model of the evolution of the vertebrate forebrain and behavior, proposed by the American physician and neuroscientist Paul D. MacLean. MacLean originally formulated his model in the 1960s and propounded it at length in his 1990 book *The Triune Brain in Evolution*. The triune brain consists of the reptilian complex, the paleomammalian complex (limbic system), and the ...

BrainSonix has developed and intends to manufacture and market a medical device platform based on the Company's proprietary Low Intensity Focused Ultrasound Pulse ("LIFUP") technology to modulate the brain function non-invasively without any harmful or irreversible effects on the brain and body.

In today's quick presentation we're going to share some information with you that can help you understand the ear problem we know as tinnitus. We'll also reveal one of the most important health supplement discoveries that has been kept hidden from the public, due to the opposition of large pharmaceutical companies. We'll then share how this all-natural supplement may help relieve tinnitus.
