Very interesting view of 'interaction'. I've focused on biological interactions, and followed the works of Edward F. Haskell, who generalized the arrow diagrams in Einstein and Infeld (EofP), page 17, to produce an interaction based mathematical coordinate system (see cover of Main Currents in Modern Thought 7(2), 1949).

There are perhaps as many definitions as there are commentators on the subject (including one by the National Institute of Standards and Technology (NIST) that is nearly 800 words long), but none of them seem to identify all the key characteristics of cloud computing. In coming up with our definition, we tried to encapsulate the key benefits of cloud computing from a business perspective as ...
