Stroustrup: Programming -- Principles and Practice Using C++

The best way we learn anything is by practice and exercise questions. Here you have the opportunity to practice the Java programming language concepts by solving the exercises starting from basic to more complex exercises. It is recommended to do these exercises by yourself first before checking the solution.

Java programming Exercises, Practice, Solution - w3resource

A code kata is an exercise in programming which helps programmers hone their skills through practice and repetition.. In 1999, the term was used by Dave Thomas, co-author of the book The Pragmatic Programmer, in a bow to the Japanese concept of kata in the martial arts. The concept was implemented by Laurent Bossavit and Emmanuel Gaillot who talked about it at XP2005 in Sheffield (UK).

Kata (programming) - Wikipedia

Python Exercises, Practice, Solution: Python is a widely used high-level, general-purpose, interpreted, dynamic programming language. Its design philosophy emphasizes code readability, and its syntax allows programmers to express concepts in fewer lines of code than possible in languages such as C++ or Java.

Delegation skill practice exercise - Training Course Material

So you know a little bit about programming (perhaps you've read the free book, "Invent Your Own Computer Games with Python", a free programming book for beginners whose author shamelessly plugs at every chance) but you want to get better at coding. You can't seem to find any open source projects that are at your level or easy for new people to contribute to.

"I Need Practice Programming": 49 Ideas for Game Clones to ...

Fizz buzz is a group word game for children to teach them about division. Players take turns to count incrementally, replacing any number divisible by three with the word "fizz", and any number divisible by five with the word "buzz".

Fizz buzz - Wikipedia
