Daoism: Daoism, indigenous religio-philosophical tradition that has shaped Chinese life for more than 2,000 years. In the broadest sense, a Daoist attitude toward life can be seen in the accepting and yielding, an attitude that offsets and complements the moral and duty-conscious character ascribed to Confucianism.

Cross-cultural psychology is the scientific study of human behavior and mental processes, including both their variability and invariance, under diverse cultural conditions. Through expanding research methodologies to recognize cultural variance in behavior, language, and meaning it seeks to extend and develop psychology. Since psychology as an academic discipline was developed largely in ...

Cultural criminology is a theoretical, methodological, and interventionist approach to the study of crime that seeks to understand crime in the context of its culture. It views both crime and the agencies of control [clarification needed] as cultural products. Cultural criminology seeks to highlight how power affects constructions of crime, such as laws created, laws broken, and the interplay ...
