International relations (IR) or international affairs (IA) — commonly also referred to as international studies (IS), global studies (GS), or global affairs (GA) — is the study of interconnectedness of politics, economics and law on a global level. Depending on the academic institution, it is either a field of political science, an interdisciplinary academic field similar to global studies ...

International relations - Wikipedia

International relations scholarship prior to World War I was conducted primarily in two loosely organized branches of learning: diplomatic history and international law. Involving meticulous archival and other primary-source research, diplomatic history emphasized the uniqueness of international events and the methods of diplomacy as it was actually conducted.

International relations | politics | Britannica.com

Liberalism. Liberalism is a perspective on international politics which views the state as the unit of analysis, but also includes international law, international organizations and nongovernmental organizations as increasingly important factors in world politics. Liberal theorists reject the Realist presumption that international relations are a zero-sum game, but instead view them as a system ...
