NARRATION Mental illness - it's still a taboo subject. Despite all the advances made in psychiatry over the last century, accurately diagnosing mental illness still remains elusive.

### **Catalyst: Mental Illness Diagnosis - ABC TV Science**

We all need to find the proteins that do well with our bodies and we are all different. That's why we use lists for muscle-testing. In general I've found over the last couple of decades that most blood type O people need to eat meat or they have no energy, their hair falls out and they bruise—they do not make healthy vegetarians (no matter what they think—at least I've never seen one).
