To solve an SSA triangle. use The Law of Sines first to calculate one of the other two angles; then use the three angles add to 180° to find the other angle; finally use The Law of Sines again to find the unknown side.

Solving SSA Triangles - Maths Resources

The usual way of identifying a triangle is by first putting a capital letter on each vertex (or corner). Like, for example, A B C. Now, a reference to A can mean either that vertex or, the size of the angle at that vertex. Here it means the size. The edges are identified by using the small version of the opposite vertex-letter.
