The miasma theory (also called the miasmatic theory) is an obsolete medical theory that held diseases—such as cholera, chlamydia, or the Black Death—were caused by a miasma (μῑάσμα, ancient Greek: "pollution"), a noxious form of "bad air", also known as night air. The theory held that the origin of epidemics was due to a miasma, emanating from rotting organic matter.

The hamburger (also commonly called "burger") most likely first appeared in the 19th or early 20th century. The modern hamburger was a product of the culinary needs of a society rapidly changing due to industrialization, the emergence of the working class and middle class and the demand for mass-produced, affordable food that could be consumed outside of the home.

During the five or six year window I hooked up with black girls I found that this affliction didn't discriminate in the least. The good looking, the average looking, the chubsters (more on that later), the clubbers, the church goers, the employed, the unemployed, the slutty, the "snowflakes" (who, of course have only slept with their six baby daddies and nobody else) all had children.

How many times does it need to be said? It isn't Israel that controls the US it is the bankers, Israel is a symptom, not the disease. A rather large proportion of the bankers are Jewish and that is why Israel is apparently immune to international law, why financial institutions can commit felonies and no-one goes to jail and why US politicians clap like trained sealions every time Netanyahu ...
