It's a hard question to answer because great movies are all great in more or less the same way, but each terrible movie is uniquely terrible. For instance, which one is worse, a movie that is terribly shot, stupidly written and boring, or a movie that might be decently shot and written but either has a terrible message or completely fails to do what it set out to do?

When it comes to color, there may be options in your closet that shouldn't have made the qualifying race. Wearing the wrong color can make you ill. Sallow, ashen, and muddy complexions are all signs of color contamination. And the only protection against chromatic allergies is color composition cognizance, specifically, knowing your color category.
