Fingerprint identification, known as dactyloscopy, or hand print identification, is the process of comparing two instances of friction ridge skin impressions (see Minutiae), from human fingers or toes, or even the palm of the hand or sole of the foot, to determine whether these impressions could have come from the same individual. The flexibility of friction ridge skin means that no two finger ...

Maturity Training by Sandy Simpson. This DVD is a message based on this article.. Heb. 5:14 But solid food is for the MATURE, who by constant use have trained themselves to distinguish good from evil.. At the core of maturity in Christ is the issue of training to be able to distinguish between good and evil, right and wrong.
