Museum of Menstruation and Women's Health

Why we need sleep. Although sleep doesn't trump food and water in the hierarchy of physical needs, we can't live without it. Given the ethical limits on research involving human subjects, scientists have no direct evidence on how extended sleeplessness — that is, beyond a few days — affects human beings.

Repaying your sleep debt - Harvard Health

When a young woman walks into a doc's office with unexplained weight gain, the thyroid is the first place most physicians will investigate, says Jampolis.
