Bonsai, the novella by Alejandro Zambra, is a lot like bonsai, the Japanese art. It is both tiny and exquisite. A scant 90 pages, Bonsai can be read in less than three hours. And while one could certainly question why both the book and the tree should be made so small, both are undeniably fascinating.

Scott's new movie, Prometheus, started off as a prequel to the Alien series. However, as the project took shape it turned into something new and different. Scott told the Hollywood Reporter that it had changed from being an Alien prequel to exploring the "space jockey" aliens that were featured in the first Alien movie. They were the giant beings whose ship the humans explored, finding the ...
